Full-stack software developer experienced in building web and mobile applications with Laravel, Next.js, React, and Flutter. Strong database design knowledge (PostgreSQL, MySQL) and RESTful API development Experience. A collaborative problem-solver who adapts quickly and delivers reliably under pressure.

Featured Project

Icnspirit Indonesia - Gresik, East Java, Indonesia

Jan 2026 - Aug 2026

Production Scheduling System

- Designed and built a production scheduling web application using Laravel, Next.js, and PostgreSQL, developed as part of an undergraduate thesis and a collaborative project with a furniture manufacturing industry partner.
- Implemented a hybrid scheduling algorithm to optimize production flow across three work stations (wood, paint, and accessories), reducing production makespan by 16-18%.
- Automated a previously manual scheduling process, cutting administrative scheduling time by approximately 51.6%.
- Built a RESTful API layer connecting the Laravel backend to the Next.js frontend, exposing endpoints for work order intake, schedule generation, and production master data (stations, teams, and materials) through a consistent JSON contract.
- Benchmarked the API with ApacheBench, sustaining response times under 1.3 seconds at 100 concurrent users.
- Tested the system with real users, achieving a usability score of SUS 86.25, reflecting strong overall ease of use.

Skills

- Programming Languages:** PHP, JavaScript, TypeScript, Python, Java, Dart, SQL
- Frameworks & Libraries:** Laravel, Next.js, React, Flutter, Django
- Databases:** PostgreSQL, MySQL
- Tools & Platforms:** Git, GitHub, Postman, RESTful API, Docker
- Soft Skills:** Teamwork, Problem Solving, Working Under Pressure, Communication

Work Experiences

Petra Christian University - Surabaya, East Java, Indonesia

Assistant Lecturer

Feb 2024 - Aug 2026

- Led practicum sessions for Basic Programming, Statistics, OOP, Data Structures, and Database Systems (Java, Python, PostgreSQL), guiding students through core database concepts including ERD design, normalization, and SQL.
- Adapted course materials to curriculum changes and resolved technical issues in real time, sharpening teaching and public speaking skills across sessions.

Lab Assistant

Jan 2026 - Aug 2026

- Maintained lab equipment and infrastructure and developed practicum modules for Database Systems, keeping sessions running without technical disruption.
- Provided on-site technical support and direct assistance to lecturers during practicum sessions.

PT. Multi Spunindo Jaya - Krian, Sidoarjo, East Java, Indonesia

Jan 2025 - Jun 2025

Intern Web Developer

- Built a Laravel-based web application for the marketing team, digitizing a previously manual, multi-station sample request process into a single workflow accessible from anywhere.
- Added automated email notifications at every stage of the request process, eliminating manual follow-up and significantly reducing request turnaround time.

Excedio Event Organizer - Surabaya, East Java, Indonesia

Mar 2025 - Jun 2026

Event Organizer Leader & Crew

- Led and coordinated event crews and maintained direct client communication to ensure execution matched expectations.
- Proactively identified support needs and resolved on-the-spot issues, anticipating problems early to keep events running smoothly under pressure.

Education Level

Petra Christian University - Surabaya, Jawa Timur, Indonesia

Aug 2022 - Jul 2026

Bachelor of Informatics (S. Kom), 3.60/4.00
